PROGRAM AND RELEARN

Quickly program aftermarket sensors, one wheel at a time. For relearn, use the VT36 with a diagnostic scan tool or follow the auto relearn or manual relearn instructions in the car user manual. Note: The VT36 does not provide OBDII relearn functionality.

The ATEQ VT36 offers functionality and flexibility at an affordable price. Designed for tough service station environments, its rugged casing and durable rechargeable battery stands up to routine activities in the service bay. Thanks to frequent updates, the newest TPMS sensors and vehicles are introduced each year.

VT36 FEATURES

- Activates and reads TPMS sensors of all Light Vehicle brands globally
- Programs all leading universal aftermarket sensors
- Displays all sensor data in seconds: ID, tire pressure, tire temperature, battery status, etc.
- Selects vehicles via Make Model Year look-up
- Provides TPMS sensor part numbers
- Checks Remote Keyless Entry signal
- Easy-to-read display, with adjustable backlight
- User friendly navigation and command buttons
- Frequent database updates via PC desktop software
- Interface in 23 languages
