TPMS Tools

June 10, 2017

Introduction

Title:

JUNE 2017 Software Update Version Release Notes, North America

TPMS Product(s):

ATEQ VT36, VT55, VT56

The software update includes new OE coverage, improved programmable sensor coverage, new functionalities and corrections.

Livonia, Michigan: ATEQ is proud to announce the new June software release.

New version now available:

- VT36 version Hx1-10-03
- VT55 version CA2-20-03
- VT56 version DA1-20-22

New features:

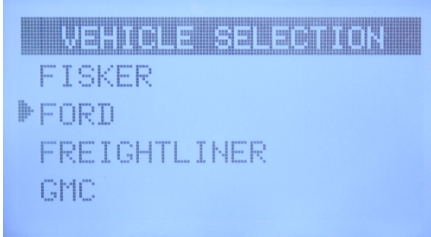

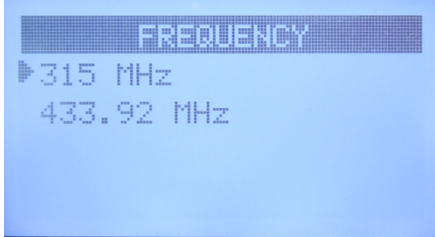

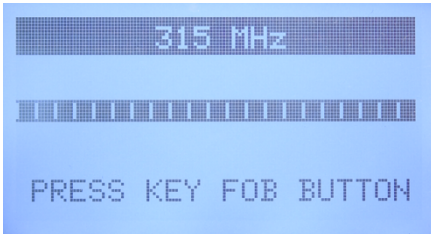

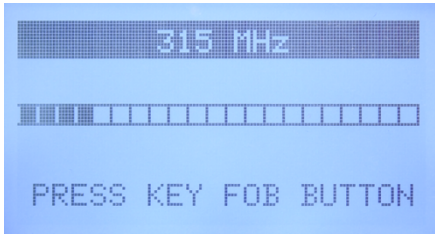

- VT36: Remote Key Entry (RKE) test available to test the strength of the RF signal of the keyfob.
- VT36: Recent Sensor Data available, view the most recent vehicle's sensor information.
- VT56: WIFI function now active for all users. Wi-Fi pairing with WebVT will assist in transferring jobs from your VT56 TPMS tool to WebVT once upgraded Web VT 8.10.0.0.
- Minor text adjustments.
