

ATEQ announces VT TRUCK tool software update Now including +20 truck, bus, trailer and retrofit TPMS sensors

Paris, 14 November 2019

Proud finalist in the International Grands Prix for Automotive Innovation at the EquipAuto trade show in Paris, the **ATEQ VT TRUCK** – the smart heavy-duty vehicle TPMS maintenance tool for dealerships, multi-brand workshops, fleet managers and hauliers – has recently been updated to include more than 20 new vehicle and sensor combinations and now includes the following new features and content:

- **Activates TPMS sensors for the following vehicles:** DAF Trucks, EvoBus, TEC, Iveco, Krone Trailers, Leyland Trucks, Lion's Coach, Neoplan, MAN, Mercedes-Benz Trucks, Mitsubishi Fuso, Nova Bus, Prevost, Setra, Scania vehicles, Schmitz Cargobull trailers, Van Hool coaches as well as the Volvo Bus 9700.
- **Activates the following TPMS sensors and retrofit kits:** Continental ContiPressureCheck, Huf Baolong BH Sens, LDL, Schrader OTR, Schrader Gen1, TireCheck (Alligator HD Sens.it), Wabco and Ave tech TPMS sensors ...
- An innovative **twin wheel feature** allows the tool to easily activate sensors in twin wheel configuration, where sensors are either placed very close to each other or difficult to reach inside the wheel arch.

New VT TRUCK tools products shipping from the factory will include the software upgrade. Existing ATEQ VT TRUCK customers can get the software upgrade for free by downloading it from www.ateq-tpms.com/downloads

The recommended retail price for the VT TRUCK is €379, available from regular ATEQ resellers.

The tool will be showcased at **Solutrans** - the International Exhibition for Road and Urban Transport Solutions in Lyon, 19-23 November - by **Provac** (Hall 3, G126), **Rema Tip-Top** (Hall 3, E230) and **SBRF** (Hall 2, A099) among others.

ATEQ TPMS

About ATEQ TPMS:

ATEQ TPMS, a French company, is the world's leading supplier of diagnostic tools in the TPMS (Tyre Pressure Monitoring System) field. ATEQ supplies a comprehensive range of TPM activation tools for assembly lines, research and development, and for all workshops dealing with tyres. ATEQ tools speed up diagnosis, programming and all maintenance operations relating to TPMS for all vehicles sold in Europe.

About VT TRUCK:

The ATEQ VT Truck TPMS tool offers functionalities specifically designed for maintenance of European trucks and buses. Thanks to its sturdy and compact design, the tool easily read sensors even in twin wheels, and has the ability to register the TPMS sensor information for up to 26 wheels per vehicle. Already compatible with most truck, trailer and bus TPMS sensors, the VT Truck is frequently updated with new heavy-duty vehicles as they are introduced. All at an attractive price.

VT TRUCK FEATURES

- Ideal for fleet management and heavy vehicle maintenance
- Checks tyre pressure to prevent under-inflation and reduce vehicle down-time
- Checks sensor battery level to prevent sensor failure
- Activates TPMS sensors of major truck and bus brands on the European market
- Displays all sensor data: ID, tire pressure, tire temperature, battery status etc.
- Handles twin wheels configuration with ease
- Manages and saves TPMS data for up to 26 wheels
- Evolutive vehicle coverage with frequent database updates
- 3 years software license included
