

ATEQ continues to Lead the Industry in Future-Proof Technology

Paris, France – April 1st, 2021. [Jacques Mouchet](#), ATEQ founder and president, recently stated that ATEQ is now ready to test HEV / EV / PEV / Fuel Cell EV vehicles, which is a massive leap forward in the automotive industry. Jacques Mouchet goes on to say:

“Whether it involves electric cars, trucks, buses or bikes, the [ATEQ Group](#), a multinational measurement solutions provider with more than 45 years of experience, provides the quality processes car manufacturers require to manufacture better, faster and more reliable HEV / EV / PEV / Fuel Cell EV vehicles.”

The introduction of HEV / EV / PEV / Fuel Cell EV vehicles provides great opportunities and challenges in the TPMS world, which ATEQ is more than ready to take on. “To address these new challenges,

ATEQ offers [leak](#), [flow](#), [battery](#) and [TPMS](#) testing instruments to ensure the quality testing of numerous components all throughout the EV vehicle manufacturing process,” Jacques Mouchet said.
