

ATEQ TPMS Tools Announces the VT67, a Tablet-Based TPMS and Tire Management Tool

The future of one-touch TPMS starts with the VT67

NOVI, Mich. - ATEQ TPMS Tools, LC, leader of TPMS Tool solutions for the OE, Industrial, and Aftermarket industries announced the addition of the VT67 to its TPMS tool fleet.

The ATEQ VT67 is a tablet-based, TPMS and tire management diagnostic tool made to work for the technician. With interactive menus, complete TPMS diagnostic capability, and even built-in support, the VT67 will completely re-imagine the way technicians diagnose and validate TPMS systems. The tool boasts over 30 features and functions, as well as a built-in camera to document any vehicle issues, which can then be added to a complete TPMS report and emailed to the customer.

“The VT67 is a product of pure innovation and determination from the entire ATEQ team. Many years ago, when TPMS was just a concept, a tool like this would never have been imagined,” said Eri Muca, Global Aftermarket TPMS Manager. “With the brain-power, customer-driven team we have at ATEQ, technology like the VT67 is only the beginning.”

VT67 All-In-One TPMS & Tire Management Tool Features:

- Automatic DOT camera recognition, in partnership with Anyline
- Complete TPMS and tire email reporting
- Live Wi-Fi updating and registration
- Full sensor and service kit image library
- Interactive manual and OBDII relearn procedures
- Camera-based vehicle inspection
- On-tool technical training with built-in training and videos
- Tire tread depth reading
