

ATEQ TPMS Tools Releases the VT57 Ahead of the 2021 SEMA show

The VT57 is the new generation of all-in-one TPMS and Tire Management Tools

Novi, MICH. - ATEQ TPMS Tools, LC, leader of TPMS Tool solutions for the OE, industrial and aftermarket industries, announced the VT57 ahead of the 2021 SEMA show.

The all-new VT57 has a brand-new touchscreen interface, 100% OEM sensor diagnostic coverage, 90% OBD coverage, color-coded tire tread depth capturing, patented "Sync-ID" OBD technology and much more. Constant Live Sensor updates and the ability to connect to Wi-Fi ensure that the VT57 has the latest coverage available.

"I am extremely proud of the entire ATEQ team for developing and delivering a creative and innovative solution for our customers. We are extremely excited to debut the next generation of TPMS tools," said Eri Muca, Global Aftermarket TPMS Manager. "I'm confident that this new technology from ATEQ will surpass all expectations."

VT57 All-In-One TPMS & Tire Management Tool Features:

- Full touchscreen capability
- Triggers and diagnoses 100% of OE sensors
- Wi-Fi and Live Sensor updating
- Programs over 20 different TPMS sensors
- Provides all manual and OBD relearn procedures
- DOT (Department of Transportation) recording
- ECU unlock
- Built-in training
- TPMS part number lookup
